We conducted our audit in accordance with the standards of the PCAOB. STERN CAPITAL LLC AND SUBSIDIARY
NOTES TO THE CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2018

1. ORGANIZATION AND NATURE OF BUSINESS

Stern Capital LLC (“Stern”) is a broker-dealer registered with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). Stern is a single member limited liability company and continues until such time it is terminated. The member’s liability is limited. Stern earns commissions and fees from insurance companies and asset management firms for the implementation of private placement variable annuity life insurance contracts and the rendering of consulting services.

The consolidated financial statements include the accounts of Stern and its wholly-owned subsidiary, Stern Capital LTD (collectively, the “Company”). All material intercompany balances and transactions have been eliminated in consolidation.

Stern Capital LTD was formed on September 5, 2007 under the laws of Bermuda. Stern Capital LTD, an unregulated entity, earns fees from insurance companies and asset management firms for the implementation of private placement variable annuity life insurance contracts with foreign investors.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation

The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

b) Use of Estimates

The preparation of consolidated financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

c) Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Filed in accordance with rule 17a-5(e)(3) as a PUBLIC DOCUMENT

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

d) Revenue Recognition

Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"). The new revenue recognition guidance, which has been amended several times, requires that an entity recognize revenue to depict the transfer of promised services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. The guidance requires an entity to follow a five-step model to (a) identify the contract with a customer (b) identify the performance obligations in the contract (c) determine the transaction price (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when the entity satisfies a performance obligation. In connection with adoption of ASC 606, the Company evaluated its revenue contracts and concluded that ASC 606 would not cause revenue to be recognized differently than it has historically been recorded.

The Company's principle source of revenue is derived from commissions and fees earned for the placement of variable annuity life insurance contracts and related consulting services. Each distinct service listed on the agreements with insurance carriers and assets managers is considered a performance obligation. The commissions and fees earned are allocated to each distinct performance obligations and revenue is recognized when performance obligations are met. The Company's key performance obligation is met when the underlying information from the insurance carriers and asset managers is received and authenticated. The Company is generally deemed to control the services; accordingly, it presents the revenues gross of the associated third-party costs historically.

e) Concentration of Credit Risk

The Company maintains cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believe it is not exposed to any credit risk.

For the year ended December 31, 2017, approximately 53% of the fees receivable were due from two clients.
